OMS

OFFICE MASTER SYSTEM™

OMS Newsletter –July 2017

Our monthly newsletter keeps you up-to-date on all the new, existing, add-on functions which you can use to get the most out of your OMS software. This is the Power of OMS!

This month we would like to share:

Customer File – Last Active Days

Do you want to find a list of your customers who have not had invoices with you in the last 180 days? In the Customer File — Report, simply enter "-180" in the "Last Active Days" field. If you want to find a list of your customers who did have invoices with you in the last 180 days, simply type "180" in the "Last Active Days" field.

OMS Shipping Options with UPS and FedEx and USPS via Stamp.com

The OMS shipping module is compatible with UPS, FedEx, and USPS services such as stamps.com. You can load customer sales order/invoice shipping addresses to the UPS/FedEx/USPS station and retrieve their tracking numbers in your OMS system. More shipping carrier options mean more flexibility and lower costs for your shipping solutions. Please contact OMS for more assistance and information.

Please NEVER hesitate to give us a call if you have any questions. Thank you for using OMS!
