

## OMS Newsletter – November 2017

\*\*\* Happy Thanksgiving! \*\*\*

**Our monthly newsletter keeps you up-to-date on all the new, existing, add-on functions which you can use to get the most out of your OMS software. This is the Power of OMS!**

**This month we would like to share:**

### **Item Historical Selling Price**

When creating an invoice/sales order/quotation, you may want to know, for this customer, an item's previous selling prices, sold quantity and sold dates. In the Item Historical Selling Price window, you can find them as well as the invoice numbers, maximum and minimum prices. In addition, you may see this item's sales history with other customers.

### **Customer Reserved Prices**

Holiday Seasons are coming up. You may use Inventory Price Change utility to change prices for all customers immediately. What if you want to reserve selected item prices for selected customers? By using our Customer Reserved Price Entry, your company can set special prices on selected items and customers, and even an expiration date. Moreover, you may have the export and import functions.

### **OMS on Apple Devices**

Just because you have a Mac doesn't mean you can't use OMS. All Macs support Windows using virtualization software such as Parallels, VMWare Fusion, or VirtualBox, or use a native solution like Boot Camp to use Windows. Once Windows is installed on your Mac, you'll be able to install your OMS System and use it just like any other PC.

Please **NEVER** hesitate to give us a call if you have any questions. Thank you for using OMS!

### **Contact Us:**

**Phone:** (626) 821-0882 **Fax:** (626) 821-9417
