

## OMS Newsletter –September 2017

**Our monthly newsletter keeps you up-to-date on all the new, existing, add-on functions which you can use to get the most out of your OMS software. This is the Power of OMS!**

**This month we would like to share:**

### **Inventory Price Change from Price/Cost**

Do you ever need to change the price of your inventory quickly? You can make the same price adjustments, whether by amount or percentage, of all or some of your selected inventory at once. You can also make a business type price change from another business type price as well as from base cost, unit cost, or average cost, either by marking up or down prices by amount or percentage.

### **Customer Monthly Sales Inquiry**

To design the best sales strategy, it is important to understand previous sales patterns from your customers. With our Customer Monthly Sales Inquiry, located under the Company Sales Analysis module, it categorizes customers' sales history into monthly and annual sales amount, letting you be able to rank customers to see which customers have the highest selling volume and which have the lowest selling volume. You get current year as well as the past two years of sales.

**Please NEVER hesitate to give us a call if you have any questions. Thank you for using OMS!**
